5. Business Arising from Minutes

- Pre-Primary students are able to use the CLC facility as it is a part of our school community, preferably outside.
- Mrs. Avery Talked to Karen MacDonald and Christina Bowie about using skating facility at CLC and proper sanitization will take place. Students will get skates on outside, so using facility is a possibility. Skating could be ready by 20th of December.
- Spoke to Wanda Fougere about taking vehicles out during free. After discussion, request was denied based on safety issues.
- Possibly able to stream school sports when/if they open back up.
- SAC Jacket order is in production. Mandi is in contact with the Ross Screenprint.

6. New business

6.1 Requests/Concerns from Parents/Community

- Wondering if it could be possible if a crosswalk could be installed closer to the Pre-Primary Area?
- Concerns about how things could be in January were voiced. For example, wondering if we were to move back to online School, would kids be able to come to the school to have access to chromebooks? It was shared that if anyone does not have a device for online learning, they will be assigned a chromebook that they will be responsible to return to the school later on. Grades 2 and Up have the possibility of having a chromebook assigned to them and 9-12 already do.
- It was questioned if a group grad photo would be possible. At this point, it is not a possibility due to restrictions.
- It was questioned whether there could be water bottles ready at school. It was shared that this is already happening.

6.2 Requests/Concerns from students:

The students did not have anything to share at this time.

**6.3 Barb Avery presented the Principal's Report**
